THIS IS UNEVALUATED INFORMATION FOR THE RESEARCH  
USE OF TRAINED INTELLIGENCE ANALYSTS

50X1-HUM

1. At the end of July 1948, work was in progress on a hydro-electric power station at Mavrovo. The necessary canals (sic) had been cut. On completion of this project, detachments of the Youth Brigades employed in the task will start work on a canal which is to link Lake Ohrid with Lake Prespa.
2. Work has also begun on a hydro-electric power station at Lazaropolje and the straightening of the river near Izvoro in order to exploit the falls. The Lazaropolje power station will supply power to a woolen mill, which will spin wool gathered by the local shepherds' Collectiv (150 members).
